PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Seraphic Infosolutions Pvt. Ltd.

May 2025 – June 2026

- Owned frontend features end-to-end from development through delivery, working closely with design, product, and backend teams.
- Cut load times and improved Lighthouse scores through lazy loading, code splitting, and asset optimization.
- Mentored junior developers via code reviews, raising the team's bar on accessibility and maintainability.
- Shipped production-ready, responsive interfaces in React.js, Next.js, JavaScript, and TypeScript.

Frontend Developer

WEBOAPP Discovery Pvt. Ltd.

September 2023 – April 2025

- Built frontend modules for affiliate integrations and content-driven platforms across five regional markets.
- Improved organic visibility by implementing SEO-optimized pages with structured data and metadata.
- Partnered with backend engineers on REST API contracts, streamlining frontend data flow.
- Reduced unnecessary React re-renders, measurably improving page-load performance.

Frontend Developer

Logicease Tecno Solutions

August 2021 – July 2023

- Built responsive, cross-browser interfaces using React.js, Bootstrap, Tailwind CSS, HTML5, and CSS3.
- Created reusable component libraries that cut repetitive UI work across multiple internal projects.
- Integrated REST APIs with proper loading, error, and edge-case handling for a smoother user experience.

PROJECTS

Skor – Safe Rental Platform

React.js | JavaScript | REST APIs | Responsive Design

- Built the complete frontend for a bilingual ES/EN rental transparency platform — separate tenant/landlord portals, auth flows, and real-time dashboards — from design handoff through production deployment.
