PROFESSIONAL SUMMARY

Senior frontend developer with 4+ years of experience shipping production-ready React.js and Next.js applications. Led end-to-end development of platforms in rental transparency, sports betting, and e-commerce — handling everything from architecture and API integration to performance optimisation and responsive UI. Comfortable owning features independently and collaborating closely with design, product, and backend teams to meet business goals.

SKILLS

React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, Context API, Responsive Design, REST APIs, Git/GitHub, Cross-browser Compatibility, Web Performance Optimisation, UI/UX Principles, Agile/Scrum, npm/Yarn, Node.js (Basic), MongoDB (Basic)

WORK EXPERIENCE

Senior Frontend Developer | Seraphic Infosolutions Pvt. Ltd. | May 2025 – Present

- Led integration of third-party APIs and internal microservices, reducing integration time by standardising reusable data-fetching hooks.
- Mentored junior developers through code reviews, enforcing accessibility (WCAG) and performance best practices.
- Drove Lighthouse performance score improvements across key pages through lazy loading, code-splitting, and asset optimisation.

Frontend Developer | WEBOAPP Discovery Pvt. Ltd. | September 2023 – April 2025

- Developed affiliate integration modules and responsible-gaming sections, working directly with product and compliance stakeholders.
- Improved SEO performance through structured data and meta optimisation — contributing to organic visibility across five regional markets.
- Collaborated with backend engineers to design efficient API contracts, cutting unnecessary re-renders and improving page load times.

Frontend Developer | Logicease Tecno Solutions | August 2021 – July 2023

- Implemented cross-browser-compatible layouts and resolved UI inconsistencies across Chrome, Firefox, and Safari.
- Developed reusable component libraries that cut repetitive UI work across multiple internal projects.
- Worked alongside backend teams to integrate REST APIs, handling error states, loading skeletons, and edge-case UX throughout.

RECENT PROJECTS

Skor – Safe Rental Platform | skortorent.com | app.skortorent.com

React.js, JavaScript, REST APIs, Responsive Design

Bilingual (ES/EN) rental transparency platform connecting tenants and landlords. Built the full marketing site and web app featuring separate tenant and landlord portals, authentication flows, and real-time dashboards. Handled all frontend work from design handoff to production deployment.

ChampsBase – Sports Betting & Casino Guide | champsbase.com

React.js, Next.js, Tailwind CSS, Multi-language (EN/FR/ES/PT-BR/PT-PT)

Global multi-language sports betting and casino guide. Developed SEO-optimised, locale-aware pages across five markets, with affiliate integrations, dynamic content rendering, and responsible-gaming sections.

Red River Gorge | red-river-frontend.vercel.app

React.js, REST APIs, Responsive Design

Completed a training period, then quickly took responsibility for building responsive UIs from Figma designs using React.js, Bootstrap, and Tailwind. 6-month travel and cabin booking platform allowing users to discover local activities, reserve cabins, and manage integrated passes for a seamless getaway experience.

EDUCATION

12th Standard | Government Co. Ed. Senior Secondary School, Rajpura, Punjab | 2019

CERTIFICATIONS

Web Designing Certification – Web Mission Technology, Rajpura (2021)
